

CREATING BETTER WORKPLACES ONE CONVERSATION AT A TIME!

Workplace culture is a driving factor in employee satisfaction and productivity. But too many of us are not having the crucial conversations necessary to make culture stronger. We get it—culture conversations can be difficult, so here are the tools to help get you started.

HOW IT WORKS

1. **Have coffee with a colleague.**
2. **Engage in a conversation about workplace culture.**
3. **Drive strategic change at work by challenging others to have culture conversations.**
4. **Join the conversation by using #MyWorkCulture.**
